Limb Chipper Notice

The CITY OF VERSAILLES provides Limb Chipper Service to aid home owners in keeping their yards neat and free of limbs.

However a few rules and exceptions must apply:

- ☐ Please turn big ends of limbs toward road.
- ☐ We are unable to pick up limbs that are **tangled** or **pushed up** with a loader, if cut up straight and stacked we will pick them up.
- ☐ Please do not place limbs behind or near a **vehicle**.
- ☐ Please make sure nothing is mixed with the limbs such as: **rose bushes root balls leaves vines**
stumps ornamental grass small sticks
polk stalks

These items clog the chipper and should be bagged or put into cans for pickup by Central Kentucky Hauling on your regular trash pickup day.

- ☐ Please make sure that no **lumber, wire, or metal** objects are in or near the limb pile.
- ☐ Please cut wide branching limbs as straight as possible to allow limbs to feed through the chipper safely.
- ☐ Please limit limb sizes to **4"-5" in diameter** and **6'to 7' in length**. Lay these larger limbs to **side of smaller limbs**.
- ☐ Please **do not** place firewood size pieces out with limbs; they hang up in the chipper.
- ☐ **Contractor cut** limbs **will not** be picked up by CITY OF VERSAILLES; arrangements should be made with the contractor before limbs are cut.
- ☐ Limbs that are **hauled in from another location** will not be picked up by CITY OF VERSAILLES.

If you were left a note with any of the above exceptions please feel free to call our Public Works Office with questions. 873-2245.
